Premium Financing is complex and involves many risks, such as the possibility of policy lapse, loss of collateral, interest rate and market uncertainty, and failure to re-qualify with the lender to keep the financing in place and maintain the desired level of insurance protection. Subject to the lender's collateral and financial underwriting requirements. Loan interest paid by the ILIT is not deductible. ILIT assets may be insufficient to pay the premiums, loan interest, and/or repay the lender. Pledged collateral and, in certain situations, additional out-of-pocket contributions to the ILIT, may be required to retire the debt and/or maintain the desired level of insurance protection. A well planned exit strategy should be in place from the beginning.
